A WORD ABOUT OUR FISH

All our fish (except catfish) comes from sustainable Alaskan sources. In fact, all fish from Alaska is sustainable. It's mandated in their state constitution. Our catfish comes from farms in Mississippi so all of our fish comes from the USA. No need to feel guilty while eating our delicious fish.

Also, all of our fish is chemical free. Other fish fry's use fish treated with TSP. (Yes, the same Trisodium Phosphate they use to clean walls prior to painting). We refuse to feed our customers such fish. So our prices may be a little higher than others but so is our quality.
